

# Tree and Shrub Services

An often undervalued asset on a property is its trees, but trees can also become liabilities when not correctly cared for. As a property owner, increasing property value is likely the top priority, and did you know you can achieve this by keeping your trees trimmed and healthy? We can help. We specialize in the skillful art of tree trimming. Our field experience and professional expertise are used to preserve the shape and beauty of your trees and shrubs, and we work with precise methods to promote long-term tree health.

# Tree and Shrub Services

## Tree Installation

A careful selection of trees is likely to enhance your property and drive up the property value, but a poor choice of trees could become a headache in the long run. Reach out to us for expert tree and shrub maintenance advice and assistance.

## Trimming and Pruning

With our services covering everything from crown pruning and aesthetic pruning to delicate thinning and clean-up services, you can sit back and enjoy the sight of perfectly trimmed trees.

## Tree Removal & Stump Grinding

Taking down a tree presents a risk, and leaving a potentially hazardous tree unattended could be even riskier. Also, leaving the stump after removing a tree could pose a danger to residents on the property. Avoid this by getting in touch with us for professional help.

## Emergency Tree Service

EarthWorks offers emergency response services in case of storms, floods, fallen trees, or other tree-related incidents to get you certified expert assistance when you need it the most.

## Disease Control

Allow our experts to assess, diagnose and develop a treatment plan for disease control to get your trees and shrub back to their former glory.

## Root Zone Fertilization

Improve the overall health of your trees and shrubs, and bring out vibrant colors for you or your residents to enjoy.

## Healthy Tree & Shrub Guarantee

When you work with us, you get personalized assistance to keep your trees and shrubs healthy whenever required.

**Reach out to us for a free tree evaluation and on-site consultation today.**
